YOUR AIRCRAFT RECOVERY SOLUTIONS PROVIDER

Aircraft Recovery Training & Competence Center

## Aircraft Recovery Training & Competence Center

Deschamps operates in cooperation with London Stansted Airport in UK an AIRCRAFT RECOVERY TRAINING & COMPETENCE CENTER which offers training courses and a comprehensive service on aircraft recovery. As a Strategic Partner at the IATA Aircraft Recovery Task Force Group, our Experts attend several seminars throughout the year to meet international standards.

### Aircraft Recovery Training

Deschamps offers several aircraft recovery training courses around the world. We provide training on- and off-site. The training covers aircraft recovery operations in theory and practice. For realistic Hands-on training we use our own Lockheed L-1011 Tristar.

### Training courses

- Aircraft recovery basic course
- Refresher Training/Continuing Education
- On-site instruction on our recovery equipments
- Tailor-made training-courses

### Training topics

- Consider Legal Aspects
- Incident size up
- Familiarization with aircraft recovery operation process
- Determine the type of aircraft recovery
- Aircraft Stabilization
- Center of Gravity calculation and monitoring
- Ground reinforcement and stabilization
- Tethering methods
- Lifting methods
- Aircraft Transport
- Administration issues

### Aircraft Recovery Services

Deschamps also offers to their customers around the world a variety of aircraft recovery services to their particular needs.

- Aircraft recovery capability survey of your airport
